One Platform. Limitless **Experiences.**

TICVAI is an AI-powered ticketing and venue management platform that unifies every part of the event experience. From ticketing and access control to CRM, analytics, retail and loyalty — all in one intelligent ecosystem.

Our mission is to empower venues and event organizers to create seamless experiences, drive growth, and make data-driven decisions with confidence.

AI-Powered

Intelligent automation, predictive insights, and smart recommendations at every step.

Unified Platform

All modules, data, and workflows are connected in one seamless ecosystem.

Secure & Reliable

Enterprise-grade security and infrastructure you can trust, at any scale.

Scalable

Built to grow with your business, from a single venue to global operations.

We don't just sell tickets.
We power **unforgettable experiences.**

Our brand identity defines who we are, what we stand for, and the experience we deliver to our users across every touchpoint.

- 01 Introduction

A Strong Identity. A Clear Promise.

Ticvai's brand identity reflects intelligence, trust and innovation. It is designed to communicate our mission and vision, and to create a consistent, premium experience across our platform and all brand touchpoints.

**Our Vision**

To become the leading AI-first ticketing and venue technology platform across the region and beyond.

**Our Mission**

To unify ticketing, venue operations, customer engagement, access and intelligence in one platform.

**Our Promise**

Make complex venue operations **simpler, smarter and more connected.**

**Our Users**

Venue managers, ticketing teams, operations, finance, marketing, access control and executive leadership.

BRAND PERSONALITY

Visual Direction

Our visual direction defines how Ticvai should look, feel and behave across all screens, devices and touchpoints.

- 01 Introduction
- 02 Brand Identity
- 03 Visual Direction
- 04 Dashboard Vision
- 05 Design Principles
- 06 Component Direction
- 07 Modules Overview
- 08 Design System
- 09 Deliverables

Design a platform that is powerful, intelligent and effortless.

Ticvai's visual direction is built on clarity, consistency and focus. Every element is intentional and supports the user in achieving more with less effort.

Purposeful

Every element has a clear purpose and supports the user.

Consistent

A unified visual system across all modules and devices.

Clear

Information is easy to scan, understand and act on.

Modern

A contemporary look that represents our AI-powered future.

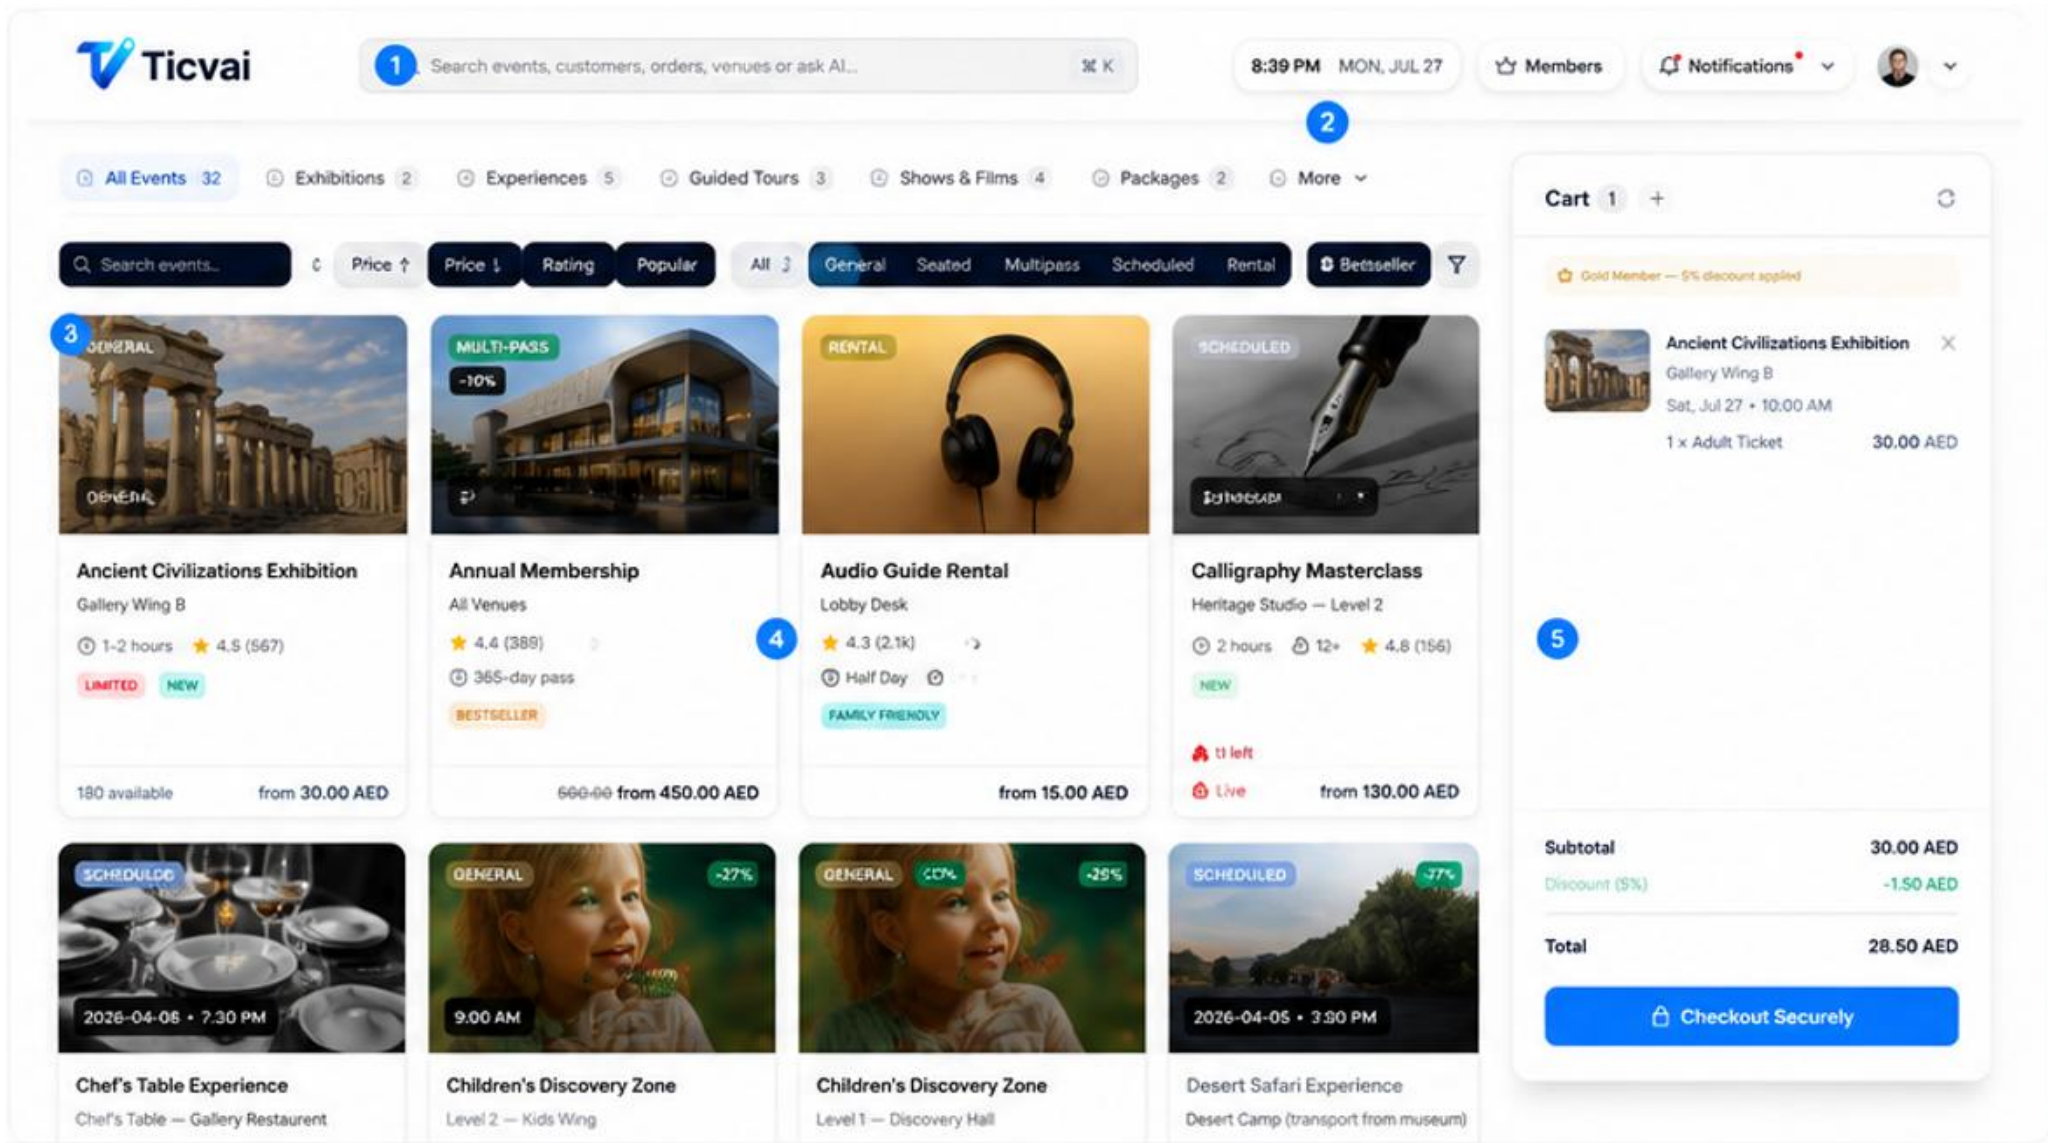

UI INSPIRATION REFERENCE

This reference represents the level of experience, spacing and clarity we want to achieve across the platform.

- 1 Global Search**
Prominent, AI-powered search that helps users find anything.
- 2 Smart Navigation**
Clean top navigation with quick access to key areas and tools.
- 3 Category Filters**
Easy filtering to help users browse and discover faster.
- 4 Content Cards**
Large visuals, clear information, badges and pricing visibility.
- 5 Persistent Cart**
Always accessible cart summary for seamless purchase flow.

Key Takeaway

Clean, modern, product-first layout with clear hierarchy and minimal visual noise.

HOW TICVAI IMPROVES THIS CONCEPT

AI Everywhere

AI insights, recommendations and smart assistance are embedded across the platform, not hidden.

Smarter Data

Dynamic KPIs, forecasts and real-time insights help users make better decisions, faster.

Personalized Experience

Role-based dashboards, preferences and smart shortcuts for every user.

Better Accessibility

High contrast, keyboard navigation and inclusive components throughout.

Consistent Branding

Ticvai's identity, colors and typography applied consistently across all screens and devices.

Our Visual Essence

- ✓ Deep, modern and trustworthy
- ✓ Intelligent and future-ready
- ✓ Clean, minimal and focused
- ✓ Built for enterprise scale

The TICVAI dashboard is the command center for your entire venue. It provides real-time insights, AI-powered recommendations, and complete operational visibility — all in one place.

Our Design Principles

Our principles define how TICVAI looks, feels and behaves. They help us create experiences that are beautiful, functional, intelligent and trusted.

Every principle is applied consistently across all screens, modules and touchpoints.

1. User-Centric

We design for real users and real workflows. Everything should be intuitive, effortless and useful.

2. AI-First

AI is not an add-on — it is embedded. It assists, predicts, recommends and automates.

3. Simple & Clear

We remove complexity and focus on what matters. Clean layouts, clear hierarchy and minimal noise.

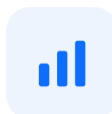

4. Fast & Efficient

Speed is essential. Our platform is optimized for quick actions, performance and productivity.

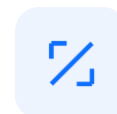

5. Reliable & Secure

Enterprise-grade security, permissions and data protection build trust and reliability.

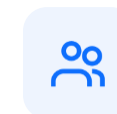

6. Data-Driven

Every action provides meaningful insights. Data is visual, actionable and easy to understand.

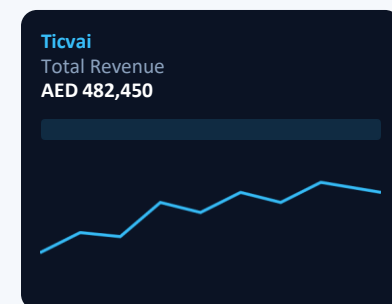

7. Scalable

Built to grow with any venue, any size and any complexity without limits.

8. Consistent

Consistent patterns, components and interactions across the entire ecosystem.

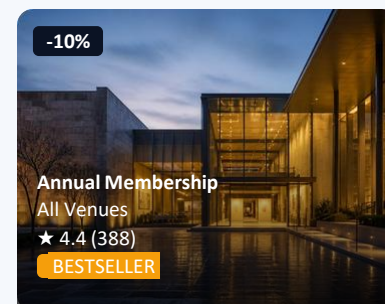

Focus on clarity and hierarchy

COMPONENT PRINCIPLES

Clarity first

Every component has a clear purpose and function.

Consistent spacing

8px grid system for perfect alignment and rhythm.

Meaningful color

Colors communicate status and guide the user.

Accessible by design

High contrast, readable text and keyboard friendly.

Mobile ready

Components adapt beautifully across all screen sizes.

One unified platform that connects every operation, every team and every customer touchpoint. All modules work together through one intelligent ecosystem.

- 04 Dashboard Vision
- 05 Design Principles
- 06 Component Direction
- 07 Modules Overview
- 08 Design System
- 09 Deliverables

One Platform.

Every Operation Connected.

TICVAI brings all your venue operations into a single, intelligent platform. Every module is integrated, sharing data, insights and AI to help you run your venue smarter.

Unified Platform

One system. One database. One source of truth.

AI-Powered

Smarter insights, automation and recommendations.

Secure & Reliable

Enterprise-grade security, permissions and compliance.

Scalable

Built to grow with any venue, any size, any complexity.

The Power of One Ecosystem

Everything connected. Everything in sync.

One Database

All data is connected and always up to date.

Smarter Decisions

AI and analytics help you decide faster.

Better Collaboration

Teams work together with complete visibility.

Higher Efficiency

Automate, streamline and focus on growth.

More Revenue

Increase sales, loyalty and customer lifetime value.

Regardless of the module a user is working in, the experience should feel like one product — not a collection of separate applications.

A strong design system ensures consistency, speed and scalability across the entire TICVAI platform. These are the core visual and interaction elements we use everywhere.

Design Principles in Action

 **Clarity First**
Every element has a clear purpose and communicates information instantly.

 **Reduce Cognitive Load**

Simplify layouts and use familiar patterns.

 **Consistency**

Use the system. Do not recreate.

 **Accessibility**

Design for everyone. WCAG AA standards minimum.

 **Hierarchy**

Guide attention with contrast, spacing and visual weight.

 **Feedback**

Every action has a clear response.

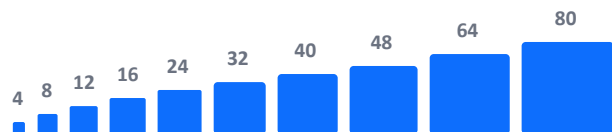

5. Icons

Line style, clean and consistent.

6. Spacing System

8px base grid for perfect alignment.

Style: Outline · Stroke: 2px · Corner: Round

7. Border Radius

Consistent rounding across the platform.

8. Shadows

Soft shadows for depth and elevation.

Delivering value at every step.

Designed. Built. Delivered.

TICVAI deliverables ensure clarity, alignment and quality across discovery, design and development. Each output is purposeful, measurable and ready for implementation.

What We Deliver

Discovery & Analysis

Requirements analysis, workshops, user research and business process mapping.

Understand

Information Architecture

Site maps, user flows and IA documents that structure the entire platform.

Structure

UI/UX Design

Wireframes, UI design, prototypes and interaction design for all key experiences.

Design

Design System

Components, patterns, styles, tokens and guidelines for a consistent product.

Standardize

Developer Handoff

Specs, assets, annotations and detailed guidelines for smooth development handoff.

Handoff

Documentation

User guides, help content, structure and operational documentation.

Enable

Purposeful

Every deliverable has a clear goal and outcome.

Collaborative

Built with your team, reviewed together and aligned.

High Quality

Detailed, consistent and built to the highest standards.

Implementation Ready

Clear handoff to development with all assets and guidelines.
